8 Major Food Allergies & Horizontal Work Surface

This brochure lists the best items to order if you suffer from any of the 8 major food allergies. We take great care in preparing your food, but we have a horizontal work surface system. This means that plates may pass through different stations to get completed. This can lead to unexpected cross contamination by allergens. We would love to be your restaurant today, but if you have severe allergic reactions to gluten (wheat), fish, crustacean shellfish, soy or peanuts, we think it's best to not eat at Aqui.

See our current store menu or our website for complete item descriptions listed in this brochure.

About Our Vegan Items

We have greatly increased our vegan offerings. We take great care in preparing your vegan items, but we have a horizontal work surface system. This means plates will pass through different stations to be completed. This can lead to possible cross contamination with animal proteins. Our kitchens only have a single fryer which is used to crisp both vegan and non-vegan items. We understand if the information noted will give you pause about enjoying vegan food at Aqui. As always, we appreciate the opportunity to be your kitchen.

The most current version of this brochure and our most current menu may be found on our website.
